RoHS Compliance Certificate

This letter is in response to customer requests for composition information on the listed material, related to implementation of the EU Directive 2002/95/EC (RoHS) and the related EU Directive 2002/96/EC (WEEE).

RoHS compliance means that the maximum concentration of lead, mercury, hexavalent chrome, polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE) including Deca-BDE is 1000 parts per million by weight in homogeneous materials, and of cadmium is 100 parts per million by weight in homogeneous materials. Exemptions are indicated if needed with reference to the Directive Annex.

All of the products listed below are RoHS compliant. This includes raw materials, manufacturing processes, assembly processes, and any other materials associated with the products.

A handwritten signature in blue ink, appearing to read 'Joe Corvin', is written over a horizontal line.
